RESOLUTION NO. 20-10-433

RESOLUTION REQUESTING GOVERNOR HUMERLITO A. DOLOR THRU THE PROVINCIAL ENVIRONMENT AND NATURAL RESOURCES OFFICE (PENRO) TO CONDUCT OCULAR INSPECTION AND ASSESSMENT OF ALL RIVERS AND MAJOR NATURAL WATERWAYS FOUND IN THE MUNICIPALITY OF BULALACAO, ORIENTAL MINDORO

“WHEREAS, Section 26 of Republic Act No. 7160 otherwise known as the Local Government Code of 1991 states that it shall be the duty of every national agency or government-owned or controlled corporation authorizing or involved in the planning and implementation of any project or program that may cause pollution, climatic change, depletion of non-renewable resources, loss of cropland, rangeland, or forest cover, and extinction of animal or plant species, to consult with the local government units, nongovernmental organizations, and other sectors concerned and objectives of the project or program, its impact upon people and the community in terms of environmental or ecological balance, and the measures that will be undertaken to prevent or minimize the adverse effects thereof;

“WHEREAS, according to the research of the University of the Philippines Training Center for Applied Geodesy and Photogrammetry (UP-TCAGP) the Municipality of Bulalacao has a 83,100-hectare river basin that covers Barangays Bagong Sikat, Benli, Cambunang, Campaasan, Nasucob, Poblacion and San Juan, it is situated in the southeast point of the Island of Mindoro and northwest of Bulalacao Bay and Tablas Strait, and as per DENR-River Basin Control Office it has an approximate land area of 6,461.35 with estimated run-off of 120 mcm;

“WHEREAS, because of its location and climate type, Bulalacao is at high risk of weather disturbances and typhoons which causes flooding and other damages that affects both agricultural and aquaculture industries and the safety of the people;

"WHEREAS, there are many cases in the flood prone areas in Bulalacao, particularly in Barangay Cambunang where the water from rivers overflow and causes flash floods, it is important to check and assess all major natural waterways to stop and prevent this flooding whenever heavy rains occur;

"WHEREAS, quarrying activities reduce flood hazards by creating catchments basins which detain and delay floodwaters during extreme rainfalls. As opposed to public belief, quarrying does not enhance flood hazards and in fact mitigates its effects that it is important to determine the actual status of waterways so that appropriate activities shall be done to achieve economic and social benefits;

NOW, THEREFORE, BE IT, RESOLVED AS IT IS HEREBY RESOLVED, To: request Governor Humerlito A. Dolor thru the Provincial Environment and Natural Resources Office (PENRO) to conduct ocular inspection and assessment of all rivers and major natural waterways found in the Municipality of Bulalacao, Oriental Mindoro.

ON MOTION of SB Member Elpidio N. Contreras and SB Member German S. Acosta duly seconded by SB Member Edwin C. Aceron, foregoing was...

APPROVED": October 12, 2020 Bulalacao, Oriental Mindoro.
